Phone: 713-792-2223 or 1-866-531-MOBR(6627)
Lahey Clinic is seeking a board-certified Hematologist with a special interest in benign hematology and coagulation as well as experience in hematologic malignancies to join its burgeoning Department of Hematology and Oncology.

You will be supported by the resources of the Lahey Clinic Sophia Gordon Cancer Center, recognized nationally and internationally as a Center of Excellence in the treatment of people with cancer, and a recent recipient of an Outstanding Achievement Award from the Commission on Cancer. The Department of Hematology and Oncology is a combined program offering advanced care for all patients with blood disorders and cancer. We work closely with associated subspecialists throughout the hospital to coordinate and develop state-of-the-art comprehensive diagnostic and therapeutic plans of care, individualized to meet the needs of each patient. Our physicians, nurses and advanced practitioners strive to provide a unique brand of compassionate care within an academic medical center, with the goal of improving the overall experience of the patient with a hematologic or malignant disease.

We have an active and enthusiastic group of Hematologists and Oncologists in multiple subspecialties who are working to develop and expand an exciting and substantial academic and clinical practice outside of Boston. Among many treatment modalities, we offer autologous stem cell transplantation for the treatment of hematologic malignancies, and an aggressive interventional oncology approach for localized treatment of many solid tumors. Our active and growing research focus enables us to offer a wide range of investigational therapies, and we participate in national and international clinical study organizations such as the Gynecologic Oncology Group, National Surgical Adjuvant Breast Program and the American College of Surgeons Oncology Group. We are a full member of the Southwest Oncology Group.

Please forward a cover letter and CV to:

Keith E. Stuart MD - Chair
Hematology/Oncology
Lahey Clinic
41 Mall Road

Director, Pediatric Stem Cell Transplantation Program
Penn State Hershey Children’s Hospital
Pennsylvania State University College of Medicine

The Division of Pediatric Hematology/Oncology at the Penn State Hershey Children’s Hospital is recruiting a Director for its Pediatric Stem Cell Transplantation Program. Candidates who are Board Certified in Pediatric Hematology/Oncology with an interest in leading and developing the stem cell transplantation section of an exciting and expanding division are encouraged to apply. Responsibilities will include directing the clinical program and developing a clinical or basic research program with Four Diamonds Fund support. The division of the Director’s time between clinical and research effort will depend on the applicant’s interests and accomplishments. Significant endowment support is available to qualified candidates with NIH-funded research programs. Rank is at the level of Associate to Full Professor based on qualifications. The Division has 11 Pediatric Hematologist/Oncologist, 6 Ph.D. faculty, and an accredited fellowship program. Over 100 new oncology patients are seen annually, and in addition to stem cell transplantation, there are programs in neuro-oncology, experimental therapeutics, late effects, hemophilia, and sickle cell anemia. The division is an active member of COG and POETIC. Research in the division is supported by a $30M endowment from the Four Diamonds Fund of the Penn State College of Medicine. Clinical investigation is also supported by an NIH-funded CTSA, Pediatric Clinical Trials Office and the Penn State Cancer Institute. A new Children’s Hospital will be completed in 2012.

Please submit a current CV and letter of interest to: Barbara Miller, M.D. (bmiller3@psu.edu), Chief, Division of Pediatric Hematology/Oncology, Penn State Children’s Hospital, The Pennsylvania State University College of Medicine, Box 850, MCH085, Hershey, Pennsylvania 17033. Applications are accepted until position filled.

The Fred Hutchinson Cancer Research Center (FHCRC) and the University of Washington (UW) are jointly recruiting a full-time faculty member to serve as the Medical Director of the SCCA/FHCRC Blood and Marrow Transplant Program. The appointment would be at the Assistant, Associate or full Member/Professor level without tenure, in the Clinician Scholar/Teacher pathway in the Clinical Research Division of the FHCRC and the Division of Medical Oncology at the UW. Candidates should have a strong interest and substantial experience in the clinical science of Blood and Marrow Transplantation.

The primary appointment will be in the Clinical Research Division of the FHCRC. The candidate would be an MD (or equivalent) and board certified in medical oncology and/or hematology (or equivalent). In order to be eligible for University sponsorship for an H-1B visa, graduates of foreign (Non-U.S.) medical schools must show successful completion of all three steps of the U.S. Medical Licensing Exam (USMLE), or equivalent as determined by the Secretary of Health and Human Services. University of Washington faculty engage in teaching, research, and service.

Interested candidates should submit a curriculum vitae and a letter summarizing research goals and career plans to: Frederick Appelbaum, MD, Fred Hutchinson Cancer Research Center, 1100 Fairview Avenue N., D5-310, Seattle, WA 98109 or fappelba@fhcrc.org.

Application review will continue until the position is filled.

The University of Washington and the Fred Hutchinson Cancer Research Center are affirmative action, equal opportunity employers, dedicated to the goal of building a culturally diverse and pluralistic faculty and staff committed to teaching and working in a multicultural environment and strongly encourage applications from women, minorities, individuals with disabilities and protected veterans.

Rhode Island and The Miriam Hospitals, affiliated teaching institutions of the Warren Alpert Medical School of Brown University Providence, Rhode Island, seek applications for the position of Medical Oncologist. The successful candidate must qualify for the rank of Instructor, Assistant or Associate Professor and have a growing reputation and potential for scholarly achievements appropriate for a junior level position. Candidates applying for the Associate Professor level position must have a national reputation and scholarly achievements appropriate to that level.

The successful candidate will report to the Chief of the Division of Hematology/Oncology. Minimum requirements include: M.D. degree, completion of residency training in Internal Medicine, Hematology/Oncology fellowship, and board certification or eligibility with a demonstrated commitment to teaching. This physician will be major a participant in The Genitourinary Multidisciplinary Clinic, provide hematologic consultative work as needed and share attending service and on call responsibilities with hematology/oncology colleagues at The Miriam and Rhode Island Hospitals. Research and scholarly activity as well as teaching activities will be an important part of the work of the successful candidate.

Review of applications will begin immediately and will continue until the position is filled or the search is closed. The Foundation, University Medicine is an EEO/AA employer and actively solicits applications from minorities and women.

Interested individuals should send CV and letter of interest to:

Anthony E. Mega, MD,
The Miriam Hospital
164 Summit Avenue
Providence, RI 02906
