

**Benign Hematology,
Yale Cancer Center**

Assistant Professor

Faculty Position, Yale Cancer Center, Yale School of Medicine. The Yale Cancer Center and Department of Medicine (Hematology) is seeking candidates at the Assistant Professor level with an interest in benign or non-malignant hematology. The Benign Hematology Program at Yale is a major referral center with expertise in the care of patients with numerous types of hematologic diseases, including thrombotic disorders, antiphospholipid syndrome, coagulation disorders, platelet disorders, anemia, porphyria, histiocytic diseases, and other rare conditions. The hematology section has a developing program in genomics of thrombosis and access to ample resources in next generation sequencing, immunobiology, laboratory medicine, and cancer biology. Applicants should be board eligible or board certified in hematology and have an interest in benign or nonmalignant hematologic diseases. 50% of the role will be spent in outpatient and inpatient clinical responsibilities and 50% in research, administrative endeavors, and teaching of medical students, residents, and fellows. Faculty appointment will be commensurate with experience. Yale values diversity in its faculty, students, and staff and strongly encourages applications from women, members of minority groups, persons with disabilities, and protected veterans. Review of applications will begin immediately and continue until the position is filled. All application materials, including your CV and a letter describing qualifications, should be submitted electronically to: <http://apply.interfolio.com/47406>

Yale University School of Medicine is an Equal Opportunity/Affirmative Action Employer.

Take your career to the next level

Your commitment to patient centered care and our model of spending more time with each patient are the foundation of our success. Today we are making healthcare remarkable.

Are you looking for a new opportunity in a healthcare system that focuses on a culture of safety and team member growth?

**Malignant Hematology and Cellular Therapy
Opportunity at
Novant Health Hematology
Charlotte and Winston-Salem, NC**

Novant Health Hematology is seeking applicants who are board-certified/eligible in hematology or medical oncology to be part of a new malignant hematology, transplantation and cellular therapy program across Novant Health.

We are seeking hematologists who will care for patients with hematologic malignancies. Physicians with expertise in leukemia, lymphoma, multiple myeloma and exposure to autologous transplantation and cellular therapy are encouraged to apply.

The successful applicant will have a philosophy of putting high value on the patient experience.

This is an exciting opportunity to be part of a new program that is rising to meet the needs of the evolving healthcare environment at a fully Accredited Integrated Network Cancer Program that includes the full spectrum of comprehensive support programs.

To confidentially learn more, contact Omotayo Fasan at oofasan@NovantHealth.org or call 980-308-1002.

To apply, submit cover letter and CV to Emily Slagle, Novant Health provider talent acquisition, at ecslagle@NovantHealth.org
