

Faculty Position Cellular Therapy

Jane Anne Nohl Division of Hematology and Center for the Study of Blood Diseases
Department of Medicine
University of Southern California Keck School of Medicine

Supported by a \$58 million endowment, the Jane Anne Nohl Division of Hematology and Center for the Study of Blood Diseases at the Keck School of Medicine of the University of Southern California and USC Norris Comprehensive Cancer Center seeks faculty members interested in basic, translational and clinical research in the area of adoptive cellular therapy, including CAR-T and TCR gene therapy. Candidates with experience in cGMP manufacturing of cellular therapy products and FDA IND process are strongly encouraged to apply. Preference will be given to applicants who have MD or MD/PhD degrees, BC/BE in Hematology and/or Medical Oncology and eligibility for a California medical license. Exceptional candidates with a PhD degree will be considered as well. Successful candidates will receive competitive compensation and appointment at the appropriate academic level (Assistant/Associate/Full Professor) commensurate with experience and accomplishments.

About The Employer

The University of Southern California (USC), founded in 1880, is located in the heart of downtown L.A. and is the largest private employer in the City of Los Angeles. USC values diversity and is committed to equal opportunity in employment. Members of all racial, gender and ethnic groups are encouraged to apply.
