The University of Virginia Stem Cell Program, Department of Medicine Division of Hematology/Oncology and University of Virginia Cancer Center is seeking a Stem Cell Transplant/Cellular Therapies Program Director. This is an open rank, open track, but expected to be at the Associate Professor or Full Professor rank. The UVA Health System offers many opportunities for collaborative clinical and basic research, an active clinical trials program, and is an NCI-designated Clinical Cancer Center. The Program Director will be responsible for ongoing design of the clinical program (quality management, selection and care of patients and donors, clinical research) as well as lead the recruitment of additional faculty members, and the development of a top tier cellular therapy and transplantation program.

The incumbent must be Board-certified in Hematology and/or Medical Oncology. Expertise in the care of Stem Cell Transplant/Cellular Therapy patients is required. The successful candidate will be accountable for independent clinical research program utilizing the excellent translational research opportunities and resources available at UVA. The successful candidate is expected to be clinically active, attend on inpatient and outpatient services at UVA, and participate in multidisciplinary team care and clinical research within the Cancer Center. In addition, the successful candidate must actively participate in the teaching of fellows, residents, and medical students.

For additional information about the position, please contact Karen K. Ballen, M.D., Division Chief, Hematology/Oncology, via email at kb3tc@virginia.edu

For assistance regarding the application process, please contact Greg Haskins, Senior Recruiter, at gh3b2@virginia.edu

Position will remain open until filled. To apply, visit https://uva.wd1.myworkdayjobs.com/UVAJobs and search for requisition # R0018028

We are equal opportunity and affirmative action employers.
The Division of Hematology/Oncology and Penn State Cancer Institute, Penn State Health Milton S. Hershey Medical Center, associated with the Penn State Hershey Medical School, located in Hershey, Pennsylvania invites applications for faculty positions in hematology/oncology, with focus on malignant hematology (especially leukemia) and, if appropriate, stem cell transplantation. Responsibilities include patient care, clinical research, and medical student and house staff education in an ACGME- accredited fellowship program, with appointment at the assistant professor/associate professor level. The candidate will have the opportunity to interact with outstanding clinical, basic science and population science departments at our institution. Penn State Cancer Institute is the only comprehensive cancer center in central PA and provides a robust infrastructure for clinical trials and translational research facilities.

Appropriate candidates must possess an MD, DO, or foreign equivalent and be board certified/eligible in hematology/oncology and completed fellowship training in hematology/oncology at an accredited institution. Candidates must have or be able to acquire a license to practice in the Commonwealth of Pennsylvania.

Salary and academic rank will be commensurate with experience.

Hershey, PA, offers a great place to live, work, play, learn, and grow a family. Known as the home of the Hershey chocolate bar, Hershey’s community is rich in history and diverse in culture. We’re conveniently located within a short distance to major cities such as Philadelphia, Pittsburgh, NYC, Baltimore, and Washington DC. We’re proud of our community involvement and encourage you to learn more about our organization. The area boasts a reasonable cost of living whether you prefer a quiet suburban setting or thriving city atmosphere rich in theater, arts, and culture.

Interested individuals should forward CV to:
