

USC University of Southern California

Faculty Position Cellular Therapy Jane Anne Nohl Division of Hematology and Center for the Study of Blood Diseases University of Southern California Keck School of Medicine Department of Medicine

Supported by a \$58 million endowment, the Jane Anne Nohl Division of Hematology and Center for the Study of Blood Diseases at the Keck School of Medicine of the University of Southern California and USC Norris Comprehensive Cancer Center seeks faculty members interested in clinical research in the areas of adoptive cellular therapies, including CAR-T, CAR-NK and TCR gene therapies. The Division has an active next generation CAR-T cell program which is expected to enter clinical testing soon. Candidates with experience and interest in CAR-T/CAR-NK phase I clinical trials and FDA IND process are strongly encouraged to apply. Preference will be given to applicants who have experience with allogeneic stem cell transplant. The candidate should be BC/BE in Hematology and/or Medical Oncology and eligible for a California medical license. Successful candidates will receive competitive compensation and appointment at the appropriate academic level (Assistant/Associate/Full Professor) commensurate with experience and accomplishments.
