
**LEUKEMIA/LYMPHOCYTIC SYMPOSIUM:
UPDATE IN DIAGNOSIS AND MANAGEMENT**

**Nov 2, 1984
Alameda Plaza Hotel
Kansas City, Mo**

Sponsor: University of Kansas Medical Center
Guest Faculty: **Frederick R. Applebaum, MD**
University of Washington Department of Medicine

David Poplack, MD
National Cancer Institute

Carol S. Portlock, MD
Yale University School of Medicine

The symposium offers 7¼ hours AMA credit and 6¼ hours AAFP credit. Fee is \$30. For further information, contact Jan Johnston, Office of Continuing Education, University of Kansas Medical Center, 39th and Rainbow Blvd, Kansas City, KS 66103. Telephone: (913) 588-4480.

MIDWEST BLOOD CLUB ANNUAL MEETING

**Nov 1, 1984, 8 PM
Drake Hotel, Chicago**

Symposium on "Lymphokines as Modulators of Immune Response, Inflammation, and Normal and Leukemic Hematopoiesis."

David W. Allen, MD, Chairman; Joost J. Oppenheim, MD (National Cancer Institute), Moderator. Presentations: (1) Dr Oppenheim, "Interleukin I," (2) Kendall A. Smith, MD (Dartmouth Medical School), "Interleukin II," and (3) Malcolm A.S. Moore, PhD (Memorial Sloan-Kettering Cancer Center), "Lymphokine Regulation of Normal and Leukemic Hematopoiesis." For further information contact: David W. Allen, MD, Hematology/Oncology Section (111E), VA Medical Center, 54th St & 48th Ave S, Minneapolis, MN 55417.

**BONE MARROW TRANSPLANTATION IN THE TREATMENT OF HUMAN DISEASE:
CURRENT STATUS AND PROBLEMS**

**Nov 12, 1984
Rush-Presbyterian-St Luke's Medical Center, Chicago**

This program will include presentations on selected topics as well as a panel discussion on approaches to current problems in bone marrow transplantation. Invited lecturers include: Leon Jacobson, MD, Rainer Storb, MD, Richard O'Reilly, MD, and George Santos, MD.

This is an invitational symposium dedicating the establishment of the Bone Marrow Transplant Center at Rush-Presbyterian-St Luke's Medical Center. This continuing education activity has been approved for six credit hours in Category I of the Physicians Recognition Award. For further information contact: University Office of Continuing Education, Rush-Presbyterian-St Luke's Medical Center, 600 S Paulina St, Chicago, IL 60612. Telephone: (312) 942-7119.

**AMERICAN SOCIETY OF HEMATOLOGY
TWENTY-SIXTH ANNUAL MEETING**

**Miami Beach
Dec 1-4, 1984**

SUMMARY OF PROGRAM

SATURDAY, DEC 1

Morning:

EDUCATION PROGRAM

Hodgkin's Disease
Immune Cytopenias
Thrombosis
Molecular Genetics
Hemoglobinopathies
Transfusion Medicine
Advances in Laboratory Hematology
Myeloma
Acquired Platelet Disorders
Acute Leukemia
Marrow Transplantation
Hereditary Bleeding Disorders

Afternoon:

EDUCATION PROGRAM

Immune Markers
Immune Cytopenias
Microenvironment and Hematopoiesis
Myelodysplastic Syndromes
Pediatric Hematology
Non-Hodgkin's Lymphoma
Hodgkin's Disease
Marrow Transplantation
Myeloma
Molecular Genetics
Transfusion Medicine
Cell Membranes and Cytoskelton in Health
and Disease

SCIENTIFIC SUBCOMMITTEE SYMPOSIA

Hemoglobin/Red Cell—Gene Transfer and
Expression
Hemostasis—Recent Advances in the
Understanding of Megakaryocyte and
Platelet Function
Neoplasia—Chromosomal Patterns in
Hematopoietic Malignancy

**FORUM ON THE PRACTICE OF
HEMATOLOGY**

Evening:

WELCOME RECEPTION

SUNDAY, DEC 2

Morning:

EDUCATION PROGRAM

Acute Leukemia
Advances in Laboratory Hematology

Cell Membranes and Cytoskelton in Health
and Disease

Acquired Platelet Disorders
Microenvironment and Hematopoiesis
Immune Markers
Non-Hodgkin's Lymphoma
Thrombosis
Hemoglobinopathies
Hereditary Bleeding Disorders
Pediatric Hematology
Myelodysplastic Syndromes

SCIENTIFIC SUBCOMMITTEE SYMPOSIA

Pediatric Hematology—Advances in
Neonatal Hematology, or How to Return to
the Nursery
Immunohematology—Platelet Production &
Function
Erythropoietin & Cell
Proliferation—Hemopoietins: Biochemistry
& Function
Leukocyte Physiology—Myeloid
Differentiation Antigens

Afternoon:

**FIRST BUSINESS MEETING
PRESIDENT'S REPORT TO THE SOCIETY
STRATTON LECTURE—SAMUEL I.
RAPAPORT:**

Blood Coagulation in Hemostasis: Growing
Understanding from Clinical and
Biochemical Observations

PLENARY SESSION

MONDAY, DEC 3

Morning:

Simultaneous Scientific Sessions
Scientific Poster Session

Afternoon:

Simultaneous Scientific Sessions
Scientific Poster Session

TUESDAY, DEC 4

Morning:

PRESIDENTIAL SYMPOSIUM:
Oncogenes—Structure, Expression and
Function
GENERAL BUSINESS MEETING

Afternoon:

SIMULTANEOUS SCIENTIFIC SESSIONS

G&S GRUNE & STRATTON

A new authoritative volume!

ORGAN TRANSPLANTATION IN DIABETICS

Guest Editors

Reinout van Schilfgaarde

Guido G. Persijn

David E.R. Sutherland

July 1984, 324 pp., \$54.50

ISBN: 0-8089-1685-8, Order Code: 794690

Comprehensive in scope, **ORGAN TRANSPLANTATION IN DIABETICS** presents the first complete overview of this burgeoning field. The text specifically focuses on what clinical transplantation can offer to diabetics today—including new avenues of research in the treatment of diabetes. It also presents early evidence that some of the vascular complications of diabetes may actually be reversible after transplantation.

Based on the proceedings of the International Symposium on Organ Transplantation in Diabetics, held in the Hague, The Netherlands, on September 1 and 2, 1983, the volume's noteworthy contributions are grouped into five main sections. The first contains papers presented by several of the invited guest speakers, and covers topics of general interest to the overall theme. The other sections deal with clinical kidney transplantation in diabetics, clinical pancreas transplantation, and experimental pancreas transplantation. Although islet transplantation, strictly taken, is not "organ" transplantation, it was felt that new developments in this field pertinent to possible clinical application should be included, and these contributions are collected in the final section.

Factor Deficient Human Plasma

- Substrate Quality
- Stable
- Fresh Frozen
- Mono-Specific

(Partial) Price List (F.O.B. Overland Park, Kansas)

Coagulation Deficiency	In Vials	In Bags
Factor XI, XII	10 ml — \$ 60.00	250 ml — \$4.50 per ml
	25 ml — 145.00	500 ml — 4.25 per ml
	50 ml — 280.00	1000 ml — Special Quote
	100 ml — 540.00	
Factor VIII	10 ml — \$ 32.50	250 ml — \$1.80 per ml
	25 ml — 75.00	500 ml — 1.65 per ml
	50 ml — 137.50	1000 ml — Special Quote
	100 ml — 250.00	

- All shipments are packed with dry ice in styrofoam boxes. (Handling Charge for orders under \$250.00).
- Shipments within the United States are usually delivered within 24 hours.
- Plasma can be aliquoted in any amount up to 5 ml at an additional charge of \$.50 per vial.
- Special discount prices upon request for standing orders or large volumes.

Also available — • FACTORS I, II, V, VII, IX, X, XIII • FACTORS VIII or IX with inhibitor

**Prekallikrein Deficient • Von Willebrand Trait • Passovoy Trait • Kininogen Deficient
Normal Reference Human Plasma**

WEST VIRGINIA UNIVERSITY

Pediatric Hematologist/Oncologist xli

Be Immortal.

If you could look into the eyes of generations yet to come, you would be there. You can make a difference.

By including the American Cancer Society in your will, you can have a powerful effect on those who come after you.

And leaving a legacy of life for others is a beautiful way of living forever yourself.

AMERICAN CANCER SOCIETY

For more information, call your local ACS unit or write to the American Cancer Society, 4 West 35th St., New York, NY 10001.

PEDIATRIC HEMATOLOGIST / ONCOLOGIST

West Virginia University, Charleston Division seeks a Sub-Board certified or eligible Pediatric Hematologist/Oncologist to lead an existing program of service, teaching and research; academic rank will depend on qualifications. Interested applicants should contact William A. Neal, M.D., Professor of Pediatrics, WVU Medical Center, Charleston Division, 3110 MacCorkle Avenue, SE, Charleston, West Virginia, 25304.

An equal opportunity/affirmative action employer.

COLON AND
RECTUM CANCER
IS THE CANCER
NO ONE WANTS
TO TALK ABOUT.
TELL ME
WHEN YOU'RE
FINISHED.

WELL THEN, AT LEAST
READ ABOUT IT...
ABOUT A SIMPLE TESTING
PROCEDURE... ABOUT HOW
EARLY DETECTION
CAN SAVE LIVES...

BUT WHY DIDN'T
WE TALK ABOUT
THIS BEFORE?

LET'S TALK. For a free booklet
on colon & rectum cancer,
contact your local ACS office.

American Cancer Society

This space contributed as a public service.

Ask one of the 3 million Americans
who've survived cancer, if the money
spent on research is worth it.

We are winning.

Quick. Forget it.

The Sysmex™ CC-180 Hematology Analyzer

The benefits of having a Sysmex CC-180 semi-automated hematology analyzer are summed up in two simple statements.

Quick.

The CC-180 is quick indeed.

Dual apertures combined with dual volumetric manometers give you simultaneous counting of both WBC and RBC/Plt samples. Press one button, and your 8-parameter results arrive in a mere 27 seconds. Platelet counts are automatically determined from the RBC dilution without any additional steps or effort.

Start-up and shutdown are also quick; less than 5 minutes for each.

Forget it.

Forget the inconveniences of conventional semi-automated instruments. The Sysmex CC-180's microprocessor gives you attention

free performance. Up to 33 alert messages instantly appear on the CRT to flag abnormalities, while the memory stores the results of 100 patient samples.

The CC-180 has a quality control program and automatic calibration for Hct and Hgb. And, for totally worry free operation, the analyzer automatically performs recounts when detecting aperture clogs, background noise or test results outside of user-defined limits.

The CC-180 system is supported by American Scientific Products' extensive nationwide service network and includes a complete system of reagents and controls. For more information on the Sysmex System contact your local American S/P representative, or write: American Scientific Products, 1430 Waukegan Road, McGaw Park, IL 60085, Telephone 312/689-8410.
